

Announcing: the **NEW** Online Budget Management

We're excited to announce the release of the NEW Online Budget Management. This tool is now available to help you and your staff manage your budgets at anytime from anywhere!

Built on a new software platform, the new OBM addresses all the access issues of the past, now working across all devices and browsers. The new OBM works just like your existing version, with all the tools and functionalities you're familiar with—but with an updated look and new mobile responsiveness. And now, OBM comes with approval notification emails! Based on feedback from our schools, we've added automatic email notifications for purchase request approvers.
